

RESET TIME

I was on my way to bed when I clearly heard the following words in my spirit: *“Reset time.”* It did not make sense, but when something unforeseen like that suddenly drops, it always alerts my spiritual curiosity and keeps me pondering. Later that night I talked to the Father.

“Abba, what did You mean by reset time?” I asked and He keenly explained:

“When moving into a new time frame, adjustments are vital.

“The unsteadiness of the world order will slowly even out with new innovative ideas that will manifest.

“A shaking was necessary to stabilise the plumbline.

“This was crucial important before the next phase could commence.”

“Abba Father, I still do not understand the reason for this radical shift,” I continued after He went quiet for a moment and He replied:

“It was essential, in order to prepare the way for a remnant to position themselves. This remnant will soon become noticeable.”

“What do You want me to do with this word, Dearest Father?”

“This is a global message. Let it be known that we have entered a new dispensation. Release the word and do not try to interpret it.

“You are just a messenger, a pen in My hand.”
